

## *Phoenix*

**design CR&S Varena 2014**

Phoenix, a project signed by R&D Varena, is distinguished by subtle and pure geometric lines, giving life to a contemporary and exclusive kitchen.

An air of purity is accentuated by slim modules and the distinctive absence of handles.

The worktop in steel thickness 6 mm and the new design of the Phoenix handle characterize the island.

The handle profile is obtained from the combination of the straight channel and the 90° carved door profile.

### **Kitchens collection**

The Varena collection interprets the contemporary kitchen in its entire variety. The maximum freedom in compositions enables original proposals, which are defined by a wide range of materials, finishes and colours. The idea of a kitchen as a planned space in order to reflect the individuality of who lives in: the avant-garde technical solutions and an always more personal stylistic choice are aligned with the idea of a home project that distinguishes Poliform conception of a contemporary house.

### **Door finishings:**

Embossed and glossy lacquer

Wood: oak, siena oak, brown oak, spessart oak, dyed grey oak, moro oak, black elm and solid wood canaletto walnut.

Scotch brite steel.

DuPont Corian glacier white

The handle-profile is available in the same finishings of the doors.
