TRES|PA®

Slate Ebony
Lap siding

“The beauty of wood,
with the
quality of Trespa.”

Enhanced wood

Trespa Pura NFC® (Natural Fibre Core) is made from up to 70% natural fibres, impregnated with thermosetting resins and a non-porous surface engineered to enhance its weather resistant properties. The wood is sourced from sustainable forests and all Trespa Pura NFC® products are certified according to the PEFC™ standard.

Trespa Pura NFC®

Sidings for beautiful home exteriors

A house is a place where people spend time. A home is where a family lives comfortably. A place where you grow up together, building happy memories to look back on in later years. Trespa Pura NFC® can make a beautiful difference, with high quality exterior sidings that protect and enhance your home for you to enjoy for years to come.

Natural Fibre Core (NFC)

Trespa Pura NFC® withstands the daily realities of family life, so you won't have to say "be careful near that wall" or "watch where you kick that ball" anymore. It comes in a range of six distinctive colours, with a surface that can be cleaned with a simple wipe. Thanks to its strong resistance to weather, dirt and scratches, Trespa Pura NFC® lets you make the most of family life outdoors without worrying.

Classic Oak
lap siding

“Standing the
test of time.”

Resists weather influences.

Safe and strong
– won't harm, break or splinter.

Can be cleaned easily with soap
and water – no need to paint.

Installed quickly with
no mess and no fuss.

Guarantee on product performance
and colour stability.

Trespa Pura NFC®

For first impressions that last

Memories can fade, but Trespa Pura NFC® keeps its great looks year after year, since sun and rain have no significant effect on the product's surface. Thanks to the enhanced wood fibre-based core, combined with its closed surface, Trespa Pura NFC® has a high impact- and scratch resistance too. It is also easy to clean, so accidental stains or splashes can simply be wiped off.

Trespa Pura NFC® undergoes extensive testing against weather, impact and UV resistance. It is designed to withstand the daily challenges of family life, and is supplied with the additional reassurance of a 10 year guarantee.

With Trespa Pura NFC® there is no need to paint or lacquer, and no need to worry about scratches or unsightly stains or rot. With Trespa Pura NFC®, your home retains a distinctive and beautiful exterior you can be proud of for many years to come.

Aged Ash
Flush siding

“Enjoying the natural
environment.”

Slate Ebony

With a gorgeous, bold darkness, this matt-finished colour is a perfect choice for the ebony wood look for your home.

Royal Mahogany

The rich mahogany feel of this enhanced wood makes an impressive feature of any exterior wall or dormer window.

Aged Ash

An understated choice, this blended shade brings the feel of the forest right to the walls of your home.

Romantic Walnut

A beautiful bronze colouration with a fine wood graining along the entire surface, for a truly natural addition to your exterior.

White Pine

The light, semi-matt surface of this enhanced wood brings a bright exterior to your home, with a delicate wood-grain patterning that adds a soothing visual texture.

Classic Oak

This enhanced wood's subtle shade is ideal to accentuate any exterior, or to add contrast to a darker exterior feature of your home.

Trespa Pura NFC®

The natural touch for your home

The colours you choose for your home make a statement about who you are. The choices you make for the exterior decor are just as important as the choices you make inside. That's why Trespa Pura NFC® is available in six distinctive enhanced-wood options. Each one has been created to accentuate the shape and style of both modern and traditional family homes. Whether you want your home to stand out with a fresh modern appeal, or give it a more warm and traditional look, the Trespa Pura NFC® range brings the beauty of nature to your home.

A man in a teal shirt and blue pants is on a silver ladder, hanging a white paper lantern on the side of a house. The house has horizontal brown wood siding. A young boy in a yellow shirt is on the ground, reaching up towards the lantern. A young girl in a purple floral dress is looking out from a window above. Several other white and pink paper lanterns are strung across the scene. The sky is blue with some clouds.

“Celebrate life
in style.”

Romantic Walnut
Flush siding

Vertical sidings

You can use Trespa Pura NFC® vertically, in many different ways. The example shows a lap siding fitted alternately.

Lap sidings

Lap siding is the traditional way of applying sidings to a wall.

Flush sidings

A flat, flush surface can be achieved easily by mounting Trespa Pura NFC® sidings side by side horizontally and vertically*.

Trespa Pura ^{NFC®}

Fits any style, anywhere

Trespa Pura NFC® is the perfect choice for any vertical exterior façade cladding in either modern or traditional fitting; it gives you maximum design freedom. It is easy to handle and cut to size, and can be laid horizontally or vertically*, either side by side or in lap style. This makes it ideal for façades as well as other applications. For example on dormer windows, since it is simple to arrange and install in differing lengths or for enhancing and protecting the exterior of garages, sheds or pavilions. The wide choice of wood shades makes Trespa Pura NFC® a truly versatile style-enhancer to match any exterior.

* Vertical Flush sidings have limited possibilities. Ask your installer for details, check our website or the Trespa Pura NFC® manual supplied with the sidings.

Trespa. The architects' choice for over 50 years.

Trespa Pura NFC® is designed and created by Trespa, a specialist panelling and sidings company headquartered in the Netherlands. Founded in 1960, Trespa is the first choice of exterior panelling for many of the world's leading architects, who insist on quality, reliability and durability for their projects.

At Trespa, we pride ourselves on inspiration, exploration and innovation, the three keys to memorable design.
