Reimagined Spaces with Adaptability

Prodotti flessibili e adattabili esprimono il nostro approccio al design, trasversale e versatile, per accogliere le esigenze delle persone negli spazi più diversi. Le nostre proposte mostrano le infinite possibilità di riconfigurazione delle collezioni Arper, che si prestano ad essere ripensate e personalizzate per rispondere alle necessità di questo momento, per poi tornare al loro layout originale, quando opportuno.

Arper has always put flexibility at the forefront of our designs and promoted a sense of balance between work and personal life.

In the following proposals, we have reimagined spaces to showcase the adaptability of our products to suit the current needs. We have taken some of our favorite designs and demonstrated how they can be personalized, shifted, and modified to adapt this period needs – and reconfigured back as needed.

Distanced, not distant

Adattabilità, innovazione ed apertura sono fondamentali oggi. Queste caratteristiche accomunano le nostre idee e danno vita al progetto Back to our Spaces, pensate per questo momento particolare e per il futuro. Crediamo che non conti tanto dove, ma come possiamo creare relazioni. Vogliamo aiutarvi a ideare i nuovi spazi di condivisione: separati, ma non divisi; distanziati, ma non distanti. E come sempre, insieme.

Ecco le nostre proposte per il futuro.

These times call for adaptability, openness and innovative approaches. We are proud to offer products that are extremely well suited to the unique moment we are experiencing—and every other moment to come. We know that how we find connection is more important than where. Arper is here to help imagine our new shared spaces. Separate, not separated. Distanced, not distant. As always, together.

Here are our proposals for the future.

OUR PROPOSALS FOR THE FUTURE

OUR APPROACH TO DIFFERENT SEGMENTS AND USES

Educational	Bar & Cafeteria	Waiting area Lounge area Break-out area	Workplace	Classroom room Reading room
Healthcare	Bar & Cafeteria	Break-out area Waiting area	Workplace	Training room

Waiting Area

Le aree di attesa sono spazi intermedi, passaggi tra l'esterno e l'interno, in cui i visitatori vengono accolti. Offrono momenti per rilassarsi in una giornata intensa: l'opportunità di dedicare del tempo alla lettura, nell'attesa di un incontro o di un appuntamento. Spazi pubblici per eccellenza, ora devono essere riconsiderati per consentire alle persone di stare insieme pur mantenendo tra loro la necessaria distanza.

Waiting areas are in-between spaces, thresholds to entry for guests visiting institutions. They offer visitors stolen moments in a busy day—a chance to escape into a book, or newspaper or read an article while waiting for meetings or appointments. A place of public congress, we now must reconsider ways of coming together while maintaining distance.

Waiting Area — Before

Waiting Area — Now

Waiting Area — Now

Le affollate aree di attesa che ci sono familiari devono necessariamente essere configurate in modo da garantire l'adeguata distanza tra le persone pur offrendo uno spazio di comfort e riposo. Per questo nuovo utilizzo, il divano Kiik può essere modificato includendo i moduli Paravan tra i sedili, creando un ambiente accogliente e sicuro che funge anche da tavolo d'appoggio per i materiali di lettura.

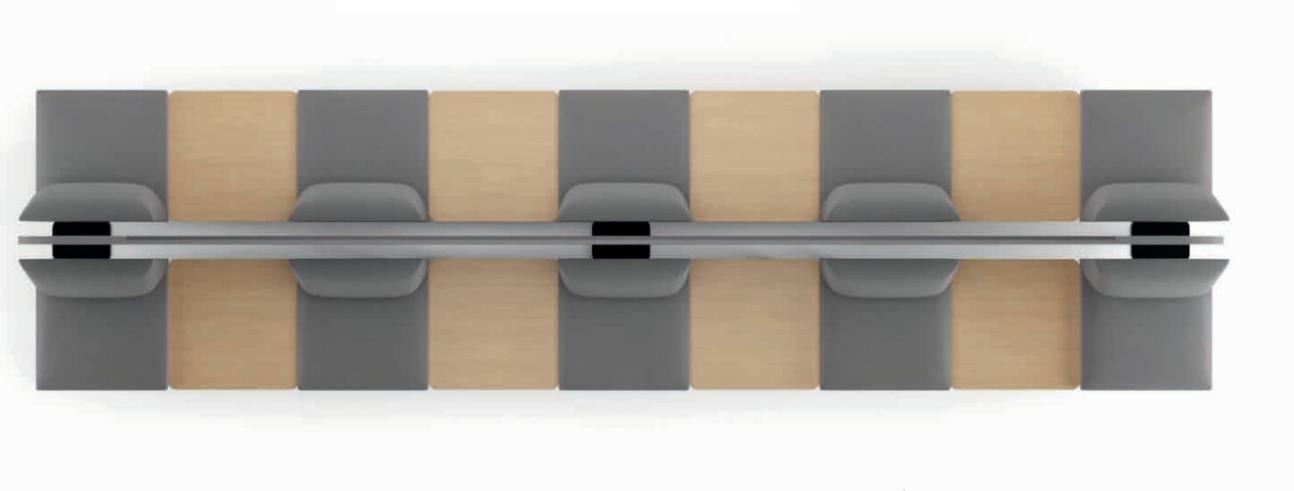

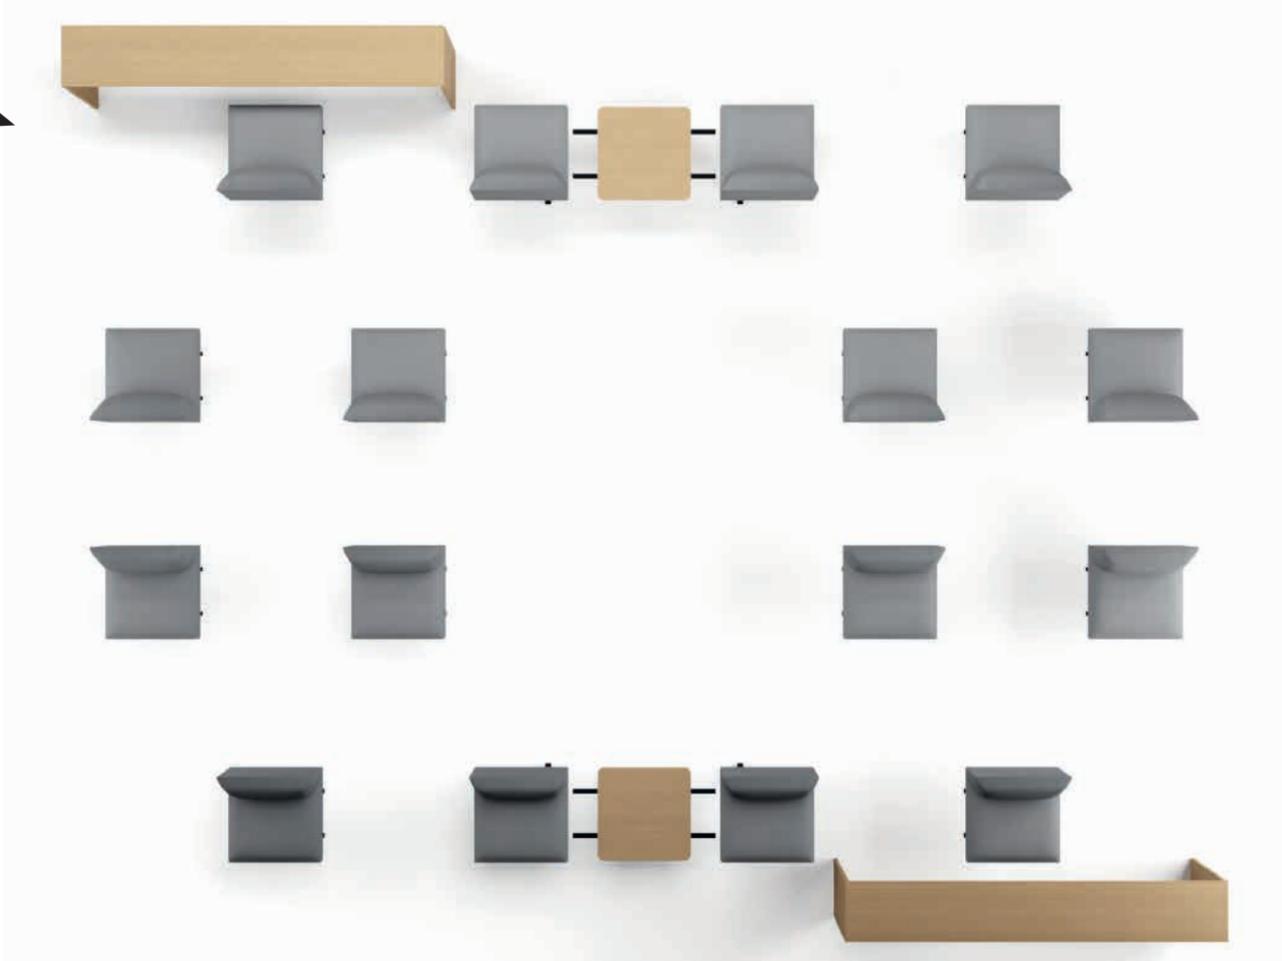

The busy waiting areas we have known need to look a little different. We need to consider how we can keep distance between each other, while still offering a space of comfort and repose. Our Kiik sofa can be modified to include Paravan modules in-between seats creating a soft, welcoming, and safe environment that doubles as functional tables for reading materials.

2020

Transformation Area

Kiik può essere facilmente adattato alle nuove esigenze. Ogni posto a sedere può essere riorganizzato per adeguarsi alle esigenze attuali, grazie alla possibilità di separare i singoli sedili o creare panche ampiamente distanziate.

Kiik can be easily transformed to adapt to new needs. Each discreet seat can be rearranged to suit the environment and moment—from individual seating to grouped benches with space in-between.

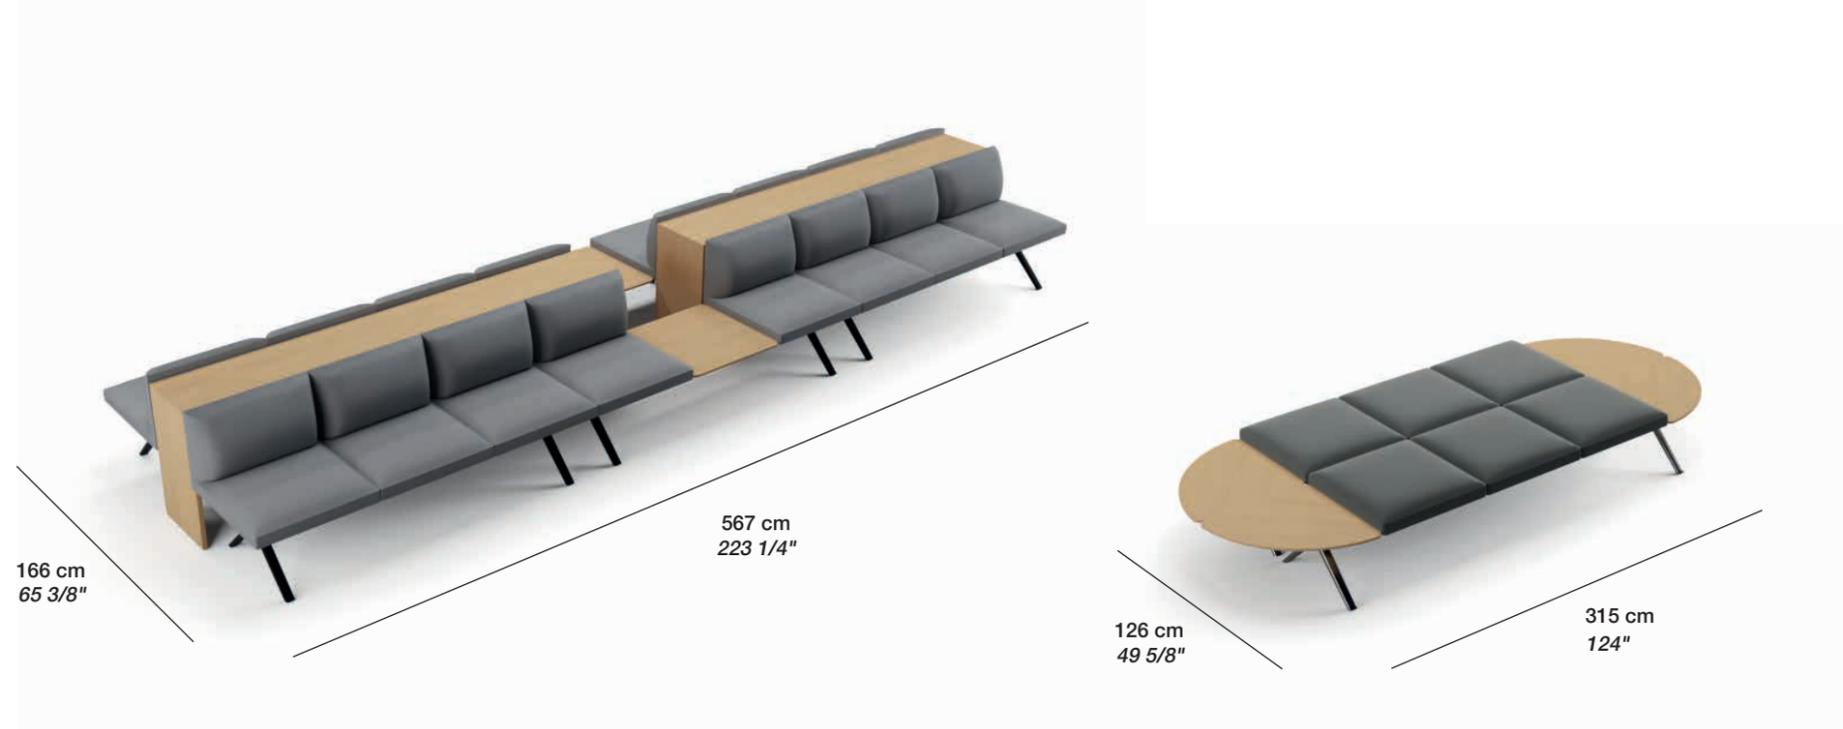

Waiting Area — Before

Utilizzare Paravan al posto della console Kiik consente di creare uno schermo protettivo tra le sedute, creando privacy e contribuendo a distanziare le persone. Paravan può anche essere un valido supporto per filtrare il rumore, creando un ambiente di attesa più rilassante anche dal punto di vista acustico.

Una panca finora utilizzata per accogliere 6 persone può essere personalizzata per accomodarne 4, riducendo così il numero di persone raggruppate nello stesso spazio.

Incorporating Paravan instead of a console forms a protective screen between seating areas, creating privacy and helping to isolate people. Paravan can also help filter noise, creating a more serene waiting environment.

A bench that has been used to seat 6 can be customized to offer 4 seats restricting the number of people grouped together in one area.

Lobby

Negli ultimi anni, le lobby sono diventate veri luoghi di incontro. Non più solo aree di attesa, queste zone, all'interno di hotel o spazi di lavoro, sono diventati luoghi in cui incontrarsi, lavorare, collaborare e pensare. Mentre sperimentiamo nuovi modi di vivere gli ambienti condivisi, cambia il nostro modo di stare vicini, ma non il nostro modo di condividere lo spazio.

In recent years, the use of lobbies has expanded. More than waiting areas, we now use lobbies in hotels or corporate offices as places to meet, to work, to collaborate, and to think. As we adapt to new ways of being in shared environments, our proximity to one another needs to change, but how we interact in these spaces remains the same.

Lobby Area – Before

Lobby Area — Now

Oggi le zone lobby devono soddisfare la richiesta di distanza di sicurezza, senza però sacrificare la capacità di interazione tra le persone. I posti a sedere di Kiik possono essere distanziati con dei tavolini—come mostrato in queste pagine—per continuare a usare gli spazi della lobby con le stesse funzionalità, ma sentendoci più protetti.

The future of the lobby needs to accommodate the demand for safe distance, while not sacrificing the dynamic functionality we've come to expect. By interspersing seating with table space—as with Kiik featured here—we can continue to use lobby spaces in the same way, but with increased precaution.

Break-out Area

Le zone break sono spazi pensati per interazioni sociali spontanee e conversazioni casuali. In questi ambienti i colleghi trovano spazio per la collaborazione e lo scambio, in un senso comune di convivialità.

Break rooms and watering holes are spaces for spontaneous social interactions and casual conversation. In these spaces, colleagues and cohorts find moments for unplanned collaboration and exchange and a sense of conviviality.

Break-out Area — Before

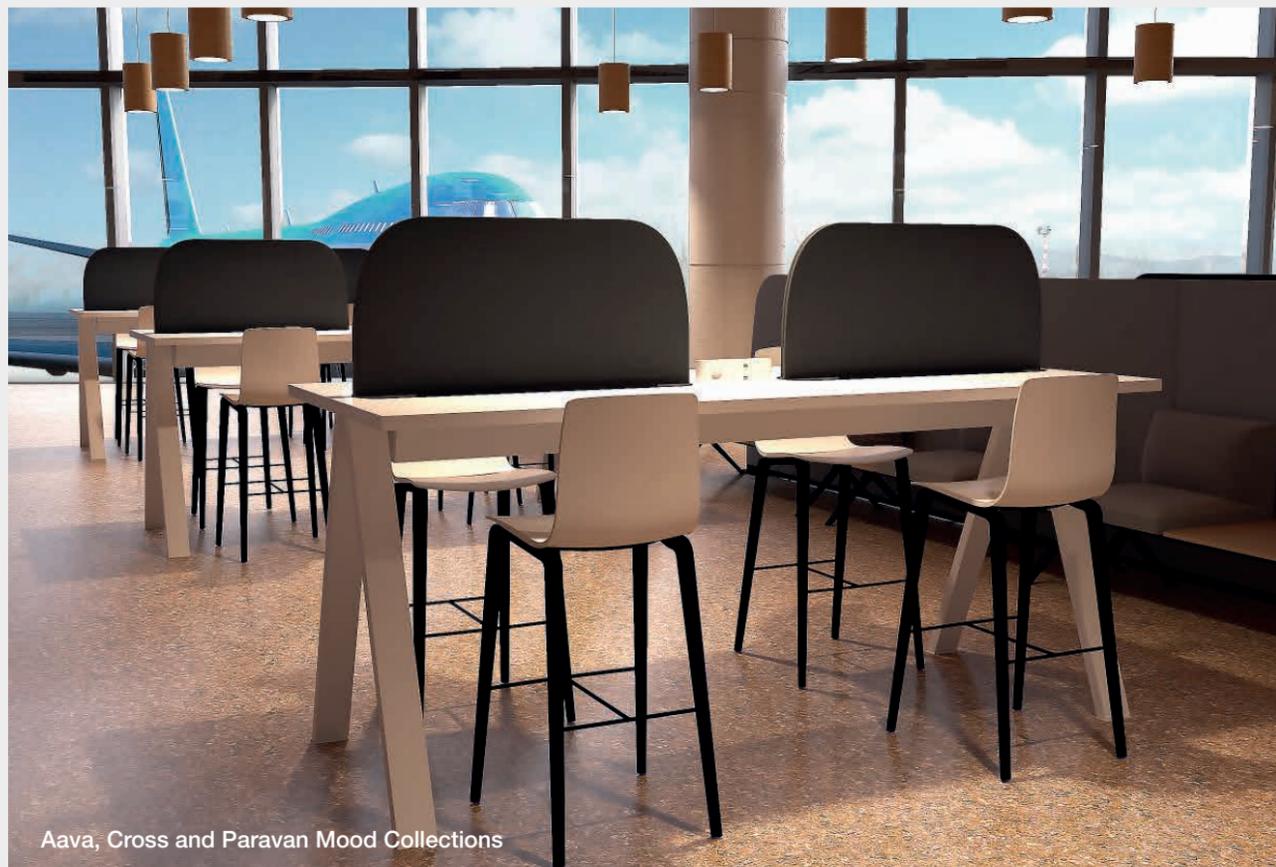

Aava and Cross Collections

Break-out Area — Now

L'inserimento dei divisori di Paravan Mood può creare distanza tra le persone senza limitare quelle interazioni sociali informali che spesso si trasformano in nuove idee, salvaguardando momenti che favoriscono un senso di cultura condivisa.

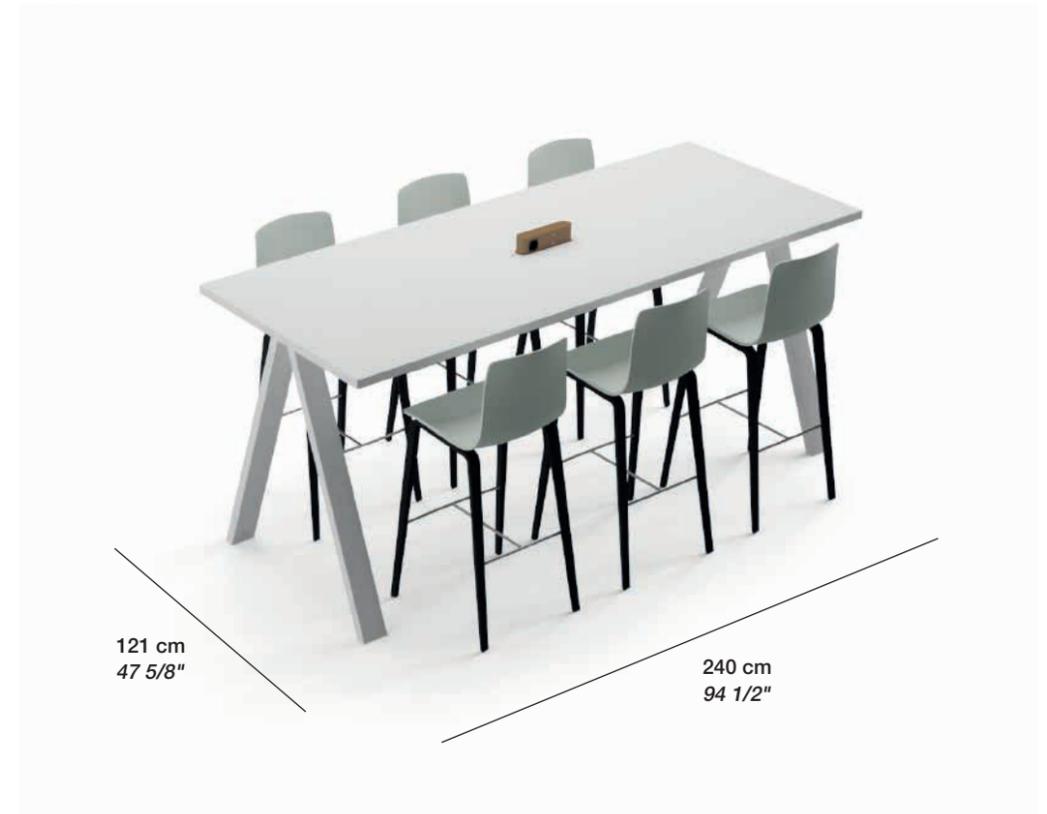

The addition of Paravan Mood dividers can create distance without sacrificing important social interaction that can lead to new ideas and foster a sense of shared culture.

Meeting Room

Le sale riunioni sono progettate per la privacy. Qui si prendono decisioni, si delineano piani e si condividono idee e progetti.

La sicurezza di questi spazi è fondamentale oggi più che mai. Questi ambienti, di dimensioni più ridotte, devono garantire una stretta collaborazione di gruppo fornendo al contempo un'atmosfera sicura.

Meeting rooms are designed for more intimate interactions and private conversations.

Here, decisions are made, plans are hatched, and ideas are thought through.

These smaller quarters need to ensure close group collaboration while providing a safe atmosphere.

Meeting Room – Before

Catifa Sensit, Dizzie, Family, Parentesit, Ply and Saari Collections

Meeting Room — Now

Cila Go garantisce sia la privacy di gruppo che lo spazio individuale. Ogni sedia Cila Go è anche una postazione di lavoro indipendente (p38) che può essere igienizzata prima dell'utilizzo; la posizione delle sedute può essere organizzata in base al numero di partecipanti. Paravan può essere integrato per suddividere l'ambiente, arricchendo lo spazio con un forte segno grafico e offrendo, allo stesso tempo, protezione acustica al gruppo di lavoro.

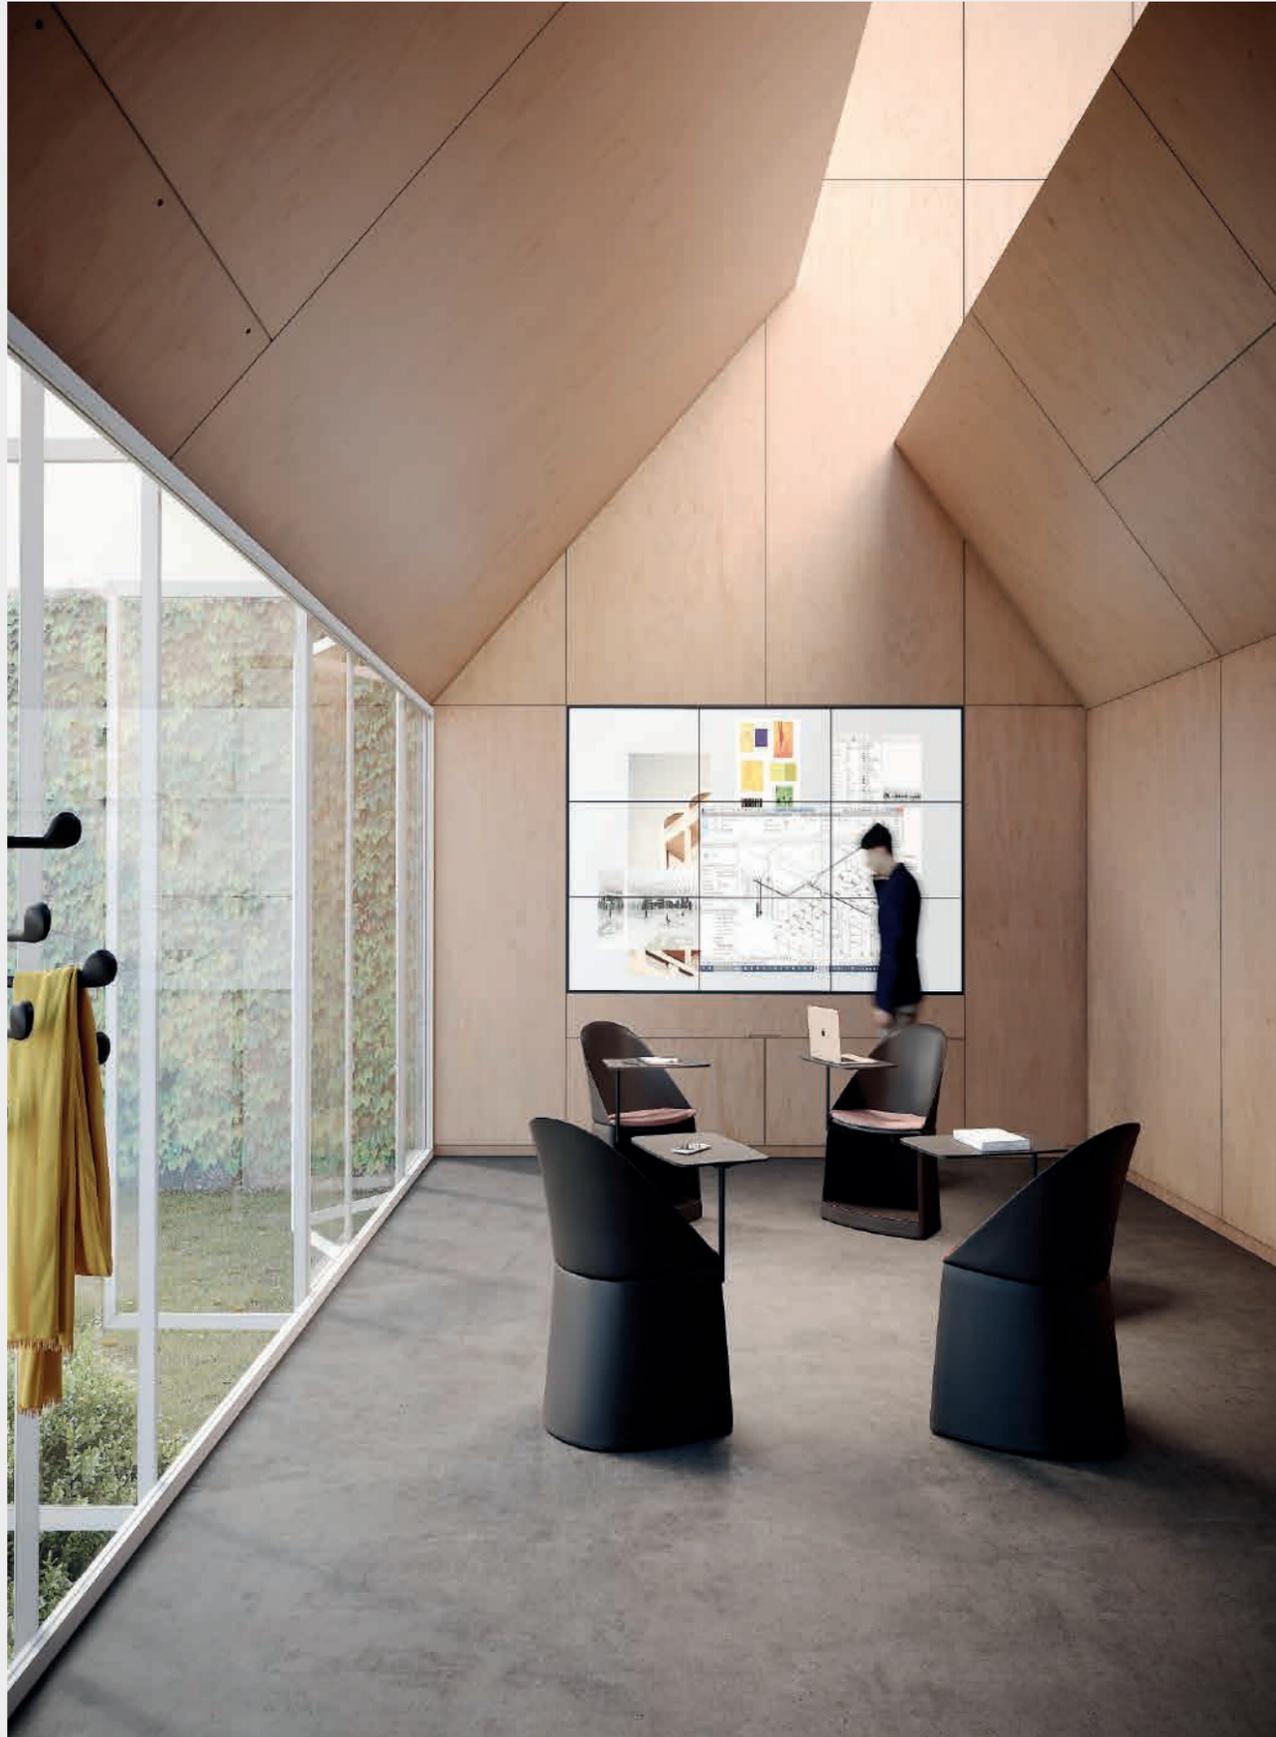

Cila Go guarantees both privacy of the group and personal space of the individual. Each Cila Go chair can contain its own work station (p38) which can be individually cleaned and can be arranged according to the number of participants. Paravan can be used as a visual space divider to demarcate a private area and an acoustic barrier shelter the group from the rest of the office.

Workplace

Negli spazi di lavoro convivono innovazione, ispirazione e lavoro di squadra. Qui nascono e crescono idee e progetti.

Affinché questi luoghi possano continuare a svolgere il loro ruolo abbiamo pensato ad un kit di accessori semplici e pratici per rispondere alle esigenze di questo specifico momento.

We rely on our workplaces as sites of innovation, inspiration, and teamwork.

To make sure our work can continue to flourish, we must recontextualize our workplaces to keep ideas flowing. Arper has created a toolkit of simple and practical accessories to adapt the spaces where we work to the urgent demands of this moment.

Home office

Oggi più che mai, stiamo imparando cosa significhi lavorare da casa. I nostri spazi personali sono diventati ibridi, devono essere progettati per accogliere momenti di lavoro e la nostra vita privata, in un equilibrio armonioso e personale. I prodotti Arper si adattano in modo unico agli ambienti home office: progettati per essere flessibili mantenendo la loro personalità, sono dotati di tutte le funzionalità dei mobili per ufficio tradizionali pur facendoci sentire a casa.

More than ever, we are learning what it means to work from home. Our personal spaces have become hybrid spaces – balancing work, life, and family and loved ones all under the same roof. Arper products are uniquely suited to home office environments. Designed for adaptability and with a human touch, Arper products offer all the functionality of traditional office furniture with a softer look that feels right at home.

CARE AND MAINTENANCE

The most important thing you can do
is to protect yourself and others.

IT Nell'ambito della prevenzione per contrastare la diffusione del COVID-19, un'adeguata aerazione degli ambienti, una corretta pulizia, il rispetto delle distanze di sicurezza e l'igiene personale sono fondamentali.

Ci possono essere tuttavia anche alcuni accorgimenti aggiuntivi che riguardano i prodotti Arper che si trovano all'interno dei vostri spazi. Come prima cosa, nell'ambito di una sanificazione profonda, vi chiediamo di attenervi alle indicazioni emanate dal vostro Governo per essere certi di utilizzare i prodotti specifici raccomandati.

Per la pulizia dei prodotti, invece, vi raccomandiamo di seguire gli accorgimenti all'interno del campionario collezione scaricabile da arper.com nella pagina collezione e di seguire le indicazioni che vi sono contenute.

Arper, con l'obiettivo di fornire delle linee guida per la decontaminazione delle superfici dal virus, ha completato alcuni test ed elaborato una tabella sintetica che suggerisce i principi attivi, raccomandati dal Ministero della Salute e dall'Organizzazione Mondiale della Sanità utilizzabili sui diversi materiali (questo nell'impossibilità di recepire le indicazioni e di testare tutti i prodotti in commercio per tutti i Paesi/Continenti).

Se i prodotti da voi utilizzati dovessero contenere le sostanze presenti in tabella in concentrazioni superiori o in combinazione con altri principi attivi (informazione che trovate in etichetta), consigliamo di testare sempre il prodotto applicandone una goccia in un angolo della superficie poco visibile e attendendo fino a completa asciugatura, per assicurarvi che non

provochi alterazioni nell'aspetto.

Per quanto riguarda i rivestimenti, ad oggi è noto che il rischio di contrarre il COVID-19 attraverso i tessuti è molto basso. Gli studi evidenziano che il virus non sopravvive per più di 48 ore, negli ambienti interni e all'asciutto, in normali condizioni d'uso. La pulizia quotidiana dei tessuti è già una buona regola di prevenzione e può essere eseguita con aspirapolvere e accessori specifici.

Per la decontaminazione in caso di contagio vi rimandiamo invece alle schede tecniche e alle raccomandazioni dei singoli produttori di tessuti, che sono costantemente impegnati nella ricerca per fornire soluzioni ed informazioni utili. Nel sito arper.com, all'interno della sezione Materiali, trovate il link diretto che vi rimanda alle pagine collezione di ciascuno dei nostri partner. Qui potete trovare le informazioni specifiche.

In generale, per l'igienizzazione dei tessuti a base lana, è indicato l'utilizzo di alcool isopropilico con una concentrazione tra il 70 e l'85%, evitando detergenti a base cloro e candeggina.

Per la pulizia di tessuti in poliestere e Trevira CS la sanificazione può avvenire con alcol isopropilico in concentrazione 70 - 85% e con la pulizia con un panno imbevuto di acqua calda (fino a 60°) e candeggina diluita fino a raggiungere una concentrazione di 0,1 - 0,5%.

Per qualsiasi domanda o dubbio rivolgetevi sempre al nostro servizio di Customer Service.

EN In order to prevent the spread of COVID-19, it is vital that we ensure adequate ventilation of spaces, proper cleaning, correct social distancing and impeccable personal hygiene.

In addition to this, there are a number of additional suggestions regarding the Arper products that you will have in your stores. First and foremost, with regard to proper sanitisation, we ask you to adhere to the instructions issued by your government in order to make sure you are using the specific recommended products. In terms of product cleaning, meanwhile, we recommend that you follow the instructions in the swatch book which can be downloaded from the website by visiting the collection page.

With the aim of providing guidelines around ensuring any surfaces that may be harbouring the virus are properly

disinfected, Arper has carried out testing and created a table summarising the active ingredients that can be used on various materials and are recommended by the Italian Ministry of Health and the World Health Organisation. This measure is in light of the fact that it is impossible for us to provide specific instructions and test all products on the market in all countries and continents.

If the products you are using contain any of the substances featured in the table in higher concentrations or in combination with other active ingredients (this information can be found on the label), we recommend that you test the product by applying a droplet of the product in a discreet area and wait until it has completely dried in order to check that it has not resulted in any alterations to the surface.

With regard to upholstery, as things stand, it is thought that the risk of contracting COVID-19 via contact with fabric is very low. Studies show that the virus cannot survive inside, in dry conditions such as those typical for the use of these products, for more than 48 hours. It is already good practice in terms of disease prevention to clean fabrics every day. This can be done using a vacuum cleaner with special accessories.

In the event that an infection is recorded, we advise that you consult the technical data packs and adhere to recommendations from individual fabric producers as regards decontamination processes. Producers are always happy to provide solutions and useful information. In the Materials section of the arper.com website, you will find a link to the collection page of each of our partners. Here you will be able to find the specific information you need.

Generally speaking, in order to disinfect wool-based fabrics, the use of isopropyl alcohol in concentrations of between 70 and 85% is recommended. You are advised to avoid the use of detergents including chlorine or bleach. In terms of cleaning fabrics made from polyester or Trevira CS, disinfection can be done using isopropyl alcohol in concentrations of between 70 and 85%. Cleaning may be carried out using a cloth dampened with warm water (up to 60°) and bleach diluted to a concentration of 0.1 to 0.5%.

Please contact our Customer Service team with any other questions or queries you might have.

Connection systems

Connection element with fastening kit for panels:
 — 2-way linear link for 180° arrangements, Art. 6423
 — 2-way link for 90° arrangements, "L"-shaped Art. 6424
 — 2-way link for 135° arrangements, "V"-shaped Art. 6425
 — 3-way link for 90° arrangements, "T"-shaped Art. 6426
 — 3-way link for 120° arrangements, "Y"-shaped Art. 6427
 — 4-way link for 90° arrangements, "X"-shaped Art. 6428
 — Link for circular compositions Art. 6431

"Connection element for 90° angular panels:
 — 90° angular panels h 132,5 cm (H52 1/8") Art. 6416
 — 90° angular panels h 167,5 cm (H65") Art. 6417

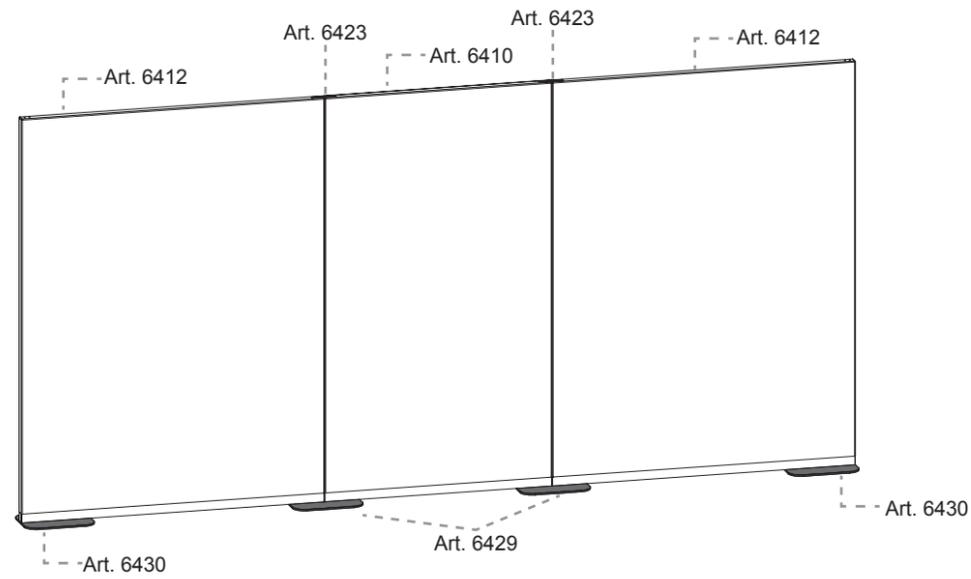

Connection system for Cabinet:
 — Cabinet (frame) h 132,5 (H52 1/8") Art. 6418
 — Cabinet (frame) h 167,5 (H65") Art. 6419

Tackable when configured with proper textile

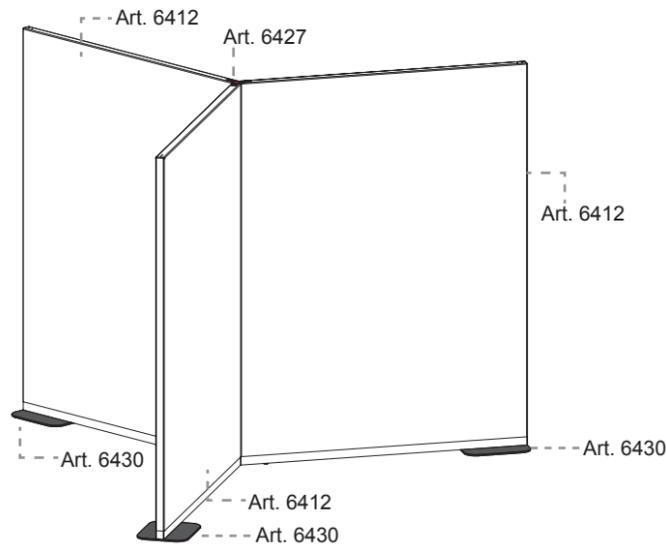

Composition examples

Linear composition

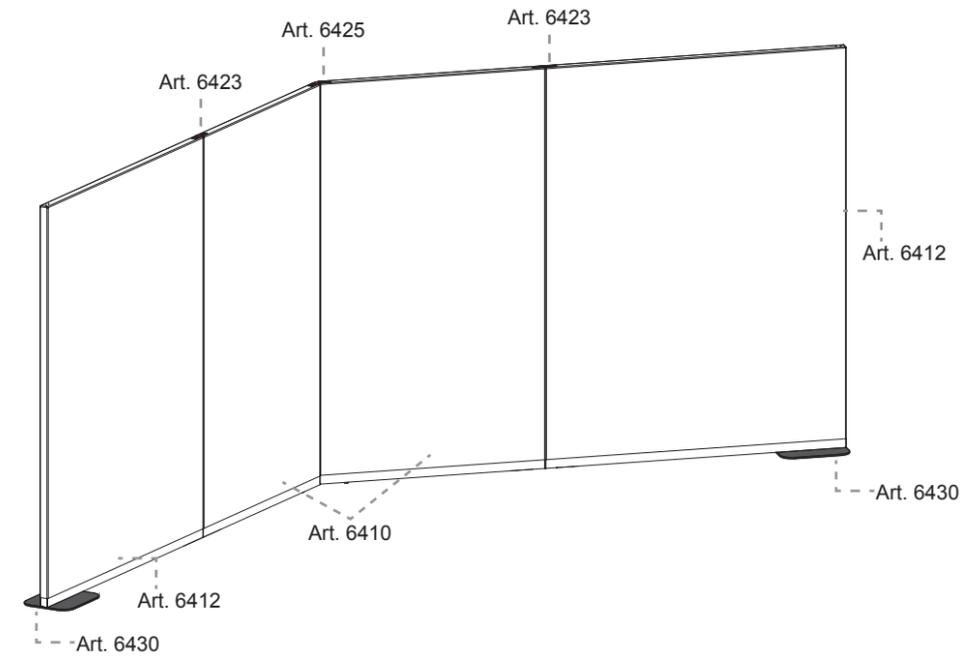

- 2 x Art. 6412 – Rectangular panel, h 167,5 cm width 126 cm (h 65" width 49 5/8")
- 1 x Art. 6410 – Rectangular panel, h 167,5 cm width 94,5 cm (h 65" width 37 1/4")
- 2 x Art. 6423 – 2-way linear link for 180° arrangements
- 2 x Art. 6430 – Single standard fixing plate
- 2 x Art. 6429 – Connection fixing plate

120° arrangement composition

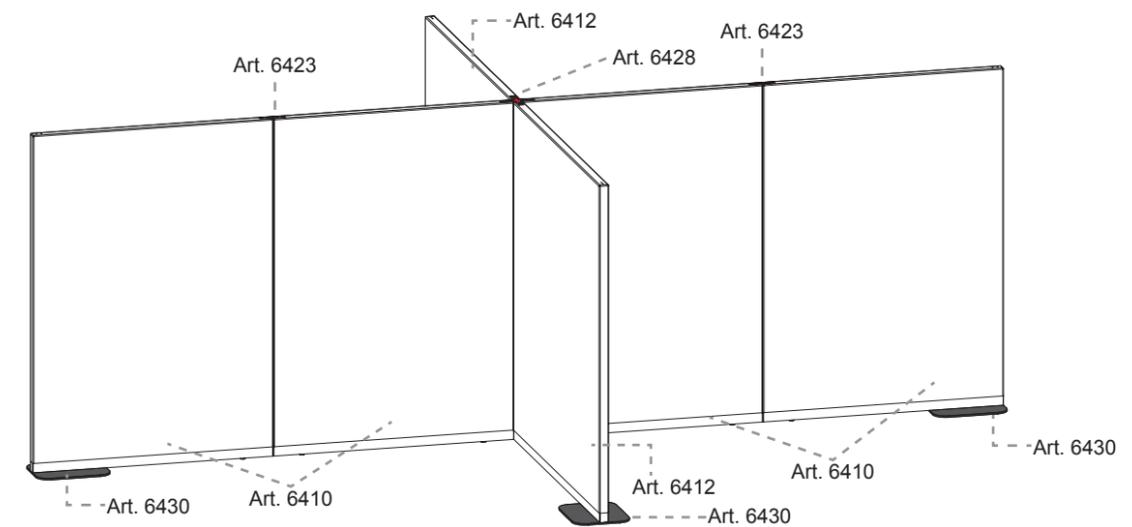

- 3 x Art. 6412 – Rectangular panel h 167,5 cm width 126 cm (h 65" width 49 5/8")
- 1 x Art. 6427 – 3-way link for 120° arrangements, "Y"-shaped
- 3 x Art. 6430 – Single standard fixing plate

135° arrangement composition

- 2 x Art. 6412 – Rectangular panel h 167,5 cm, width 126 cm (h 65" width 49 5/8")
- 2 x Art. 6410 – Rectangular panel h 167,5 cm, width 94,5 cm (h 65" width 37 1/4")
- 2 x Art. 6423 – 2-way linear link for 180° arrangements
- 1 x Art. 6425 – 2-way link for 135° arrangements, "V"-shaped
- 2 x Art. 6430 – Single standard fixing plate

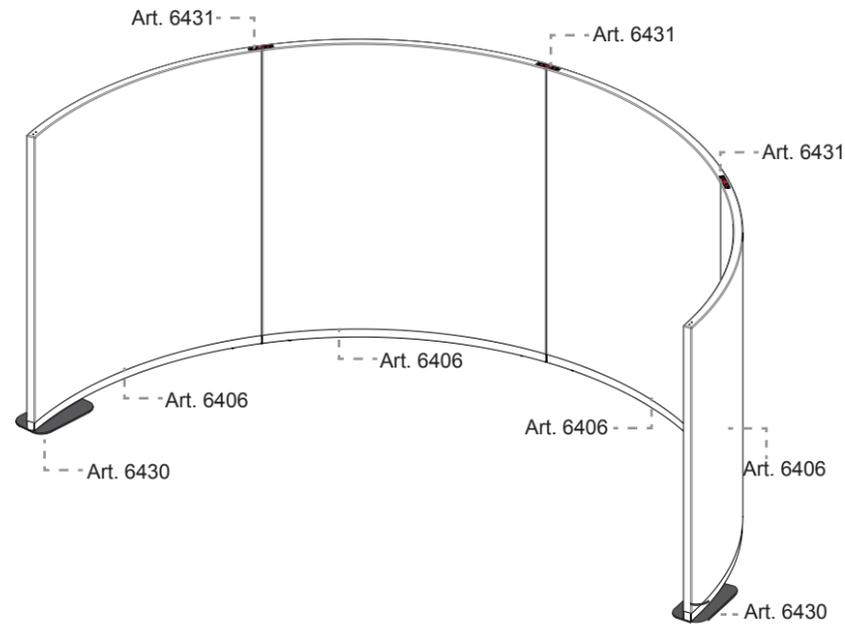

4-way composition

- 2 x Art. 6412 – Rectangular panel h 167,5 cm, width 126 cm (h 65" width 49 5/8")
- 4 x Art. 6410 – Rectangular panel h 167,5 cm, width 126 cm (h 65" width 37 1/4")
- 1 x Art. 6428 – 4-way link for 90° arrangements, X-shaped
- 4 x Art. 6430 – Single standard fixing plate
- 2 x Art. 6423 – 2-way linear link for 180° arrangements

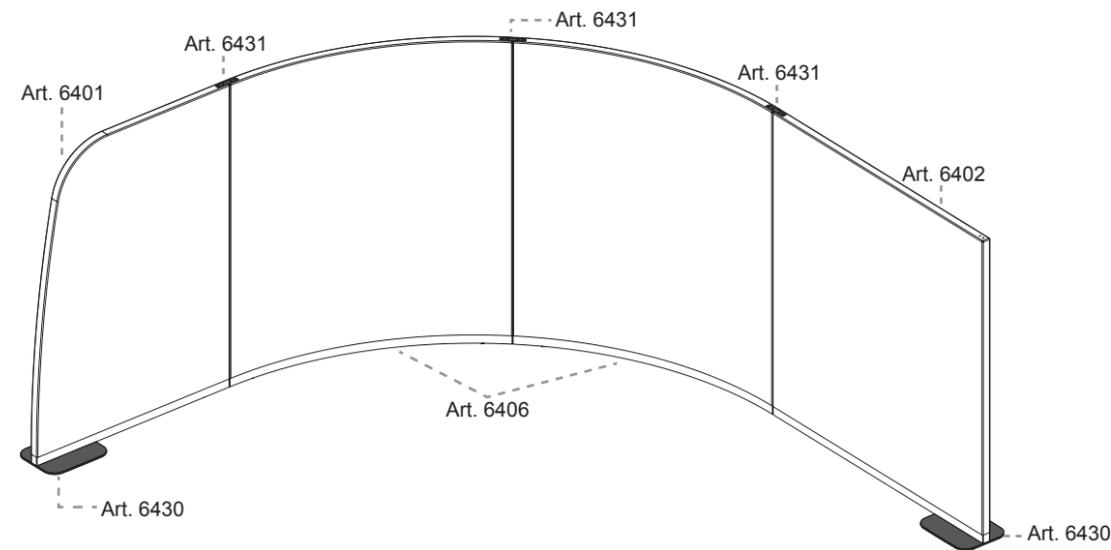

Paravan

Circular composition

- 4 x Art. 6406 – Curved panel h 132,5 cm, radius 150 cm, width 114,5 cm (h 52 1/8", radius 59", width 45 1/8")
- 3 x Art. 6431 – Link for circular composition

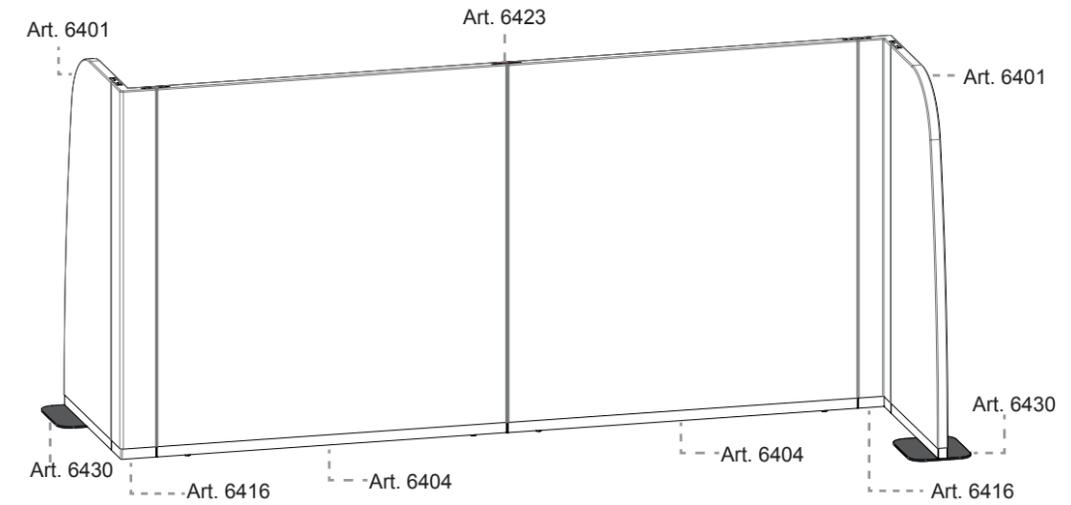

Linear-circular composition

- 2 x Art. 6406 – Curved panel h 132,5 cm, radius 150 cm, width 114,5 cm (h 52 1/8", radius 59", width 45 1/8")
- 1 x Art. 6401 – Rectangular panel with 1 curved profile h 132,5 cm width 63 cm (h 52 1/8" width 24 3/4")
- 1 x Art. 6402 – Rectangular panel h 132,5 cm width 94,5 cm (h 52 1/8" width 37 1/4")
- 3 x Art. 6431 – Link for circular composition
- 2 x Art. 6430 – Single standard fixing plate

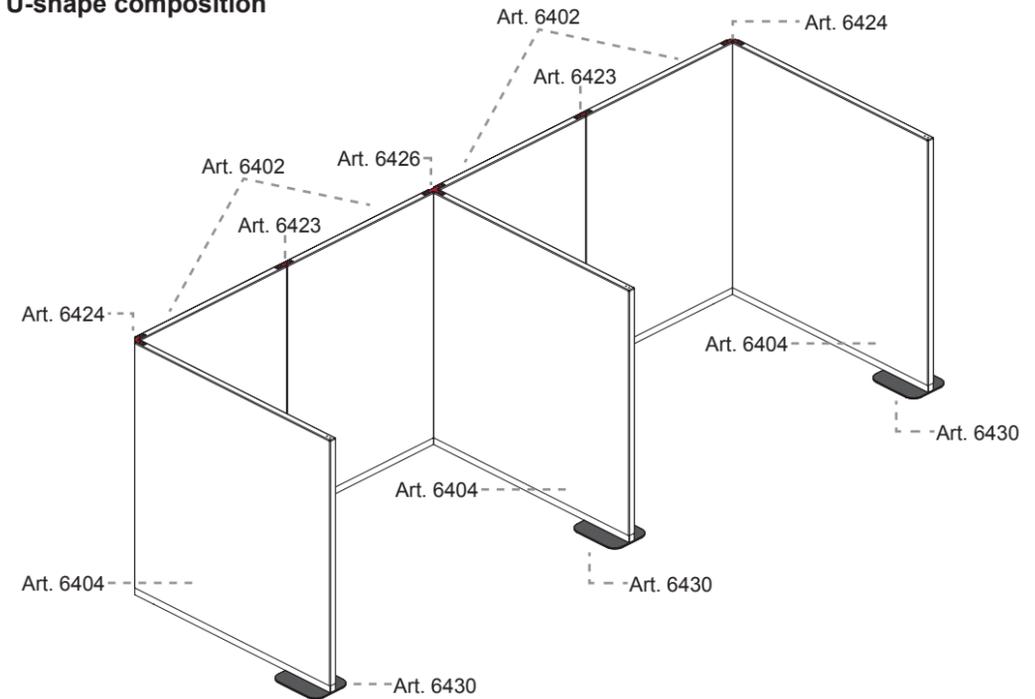

Paravan

Double L-shape composition

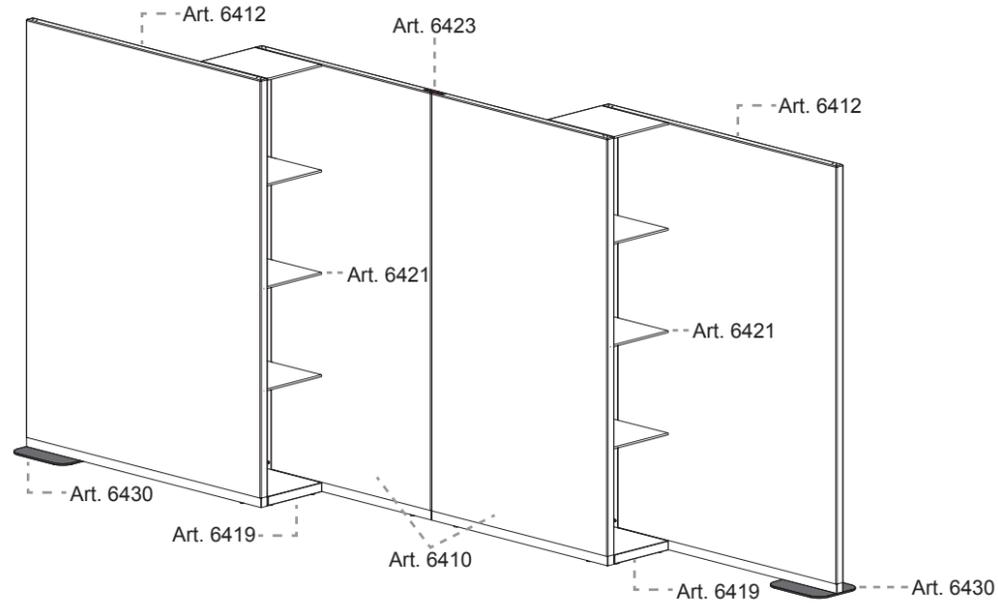

- 2 x Art. 6404 – Rectangular panel h 132,5 cm width 126 cm (h 52 1/8" width 49 5/8")
- 2 x Art. 6401 – Rectangular panel with 1 curved profile h 132,5 cm width 63 cm (h 52 1/8" width 24 3/4")
- 2 x Art. 6416 – 90° angular panel h 132,5 cm (h 52 1/8")
- 1 x Art. 6423 – 2-way linear link for 180° arrangements
- 2 x Art. 6430 – Single standard fixing plate

Double U-shape composition

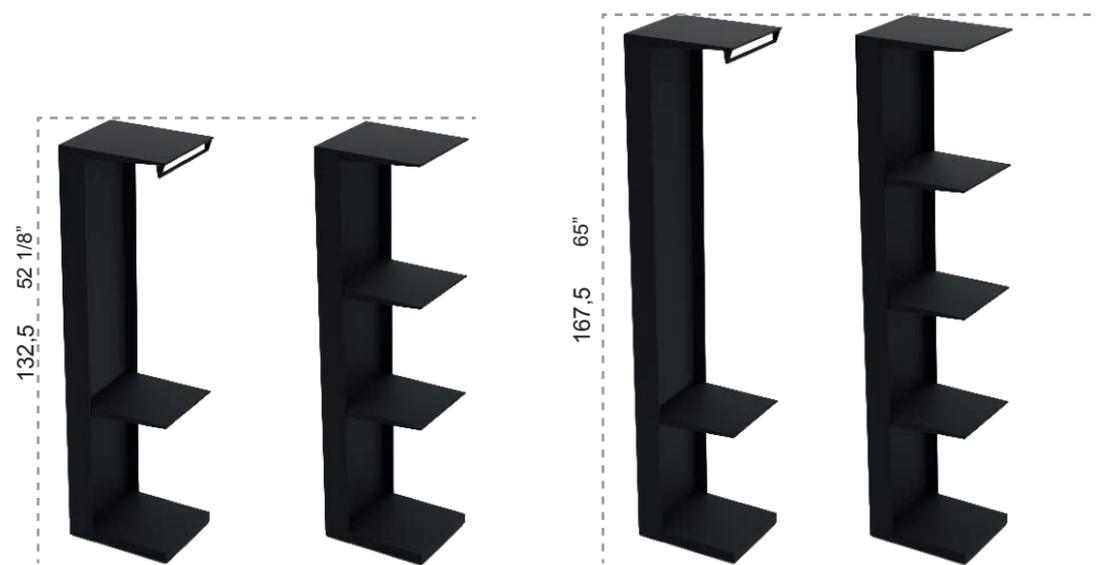

- 4 x Art. 6402 – Rectangular panel h 132,5 cm, width 94,5 cm (h 52 1/8" width 37 1/4")
- 3 x Art. 6404 – Rectangular panel h 132,5 cm, width 126 cm (h 52 1/8" width 49 5/8")
- 3 x Art. 6430 – Single standard fixing plate
- 2 x Art. 6423 – 2-way linear link for 180° arrangements
- 2 x Art. 6424 – 2-way link for 90° arrangements, L-shaped
- 1 x Art. 6426 – 3-way link for 90° arrangements, T-shaped

Linear composition with Cabinet

- 2 x Art. 6412 – Rectangular panel, h 167,5 cm width 126 cm (h 65" width 49 5/8")
- 2 x Art. 6410 – Rectangular panel, h 167,5 cm width 94.5 cm (h 65" width 37 1/4")
- 2 x Art. 6419 – Cabinet frame h 167,5 cm (h 65")
- 2 x Art. 6421 – Kit 3 shelves
- 1 x Art. 6423 – 2-way linear link for 180° arrangements
- 2 x Art. 6430 – Single standard fixing plate

Composition examples

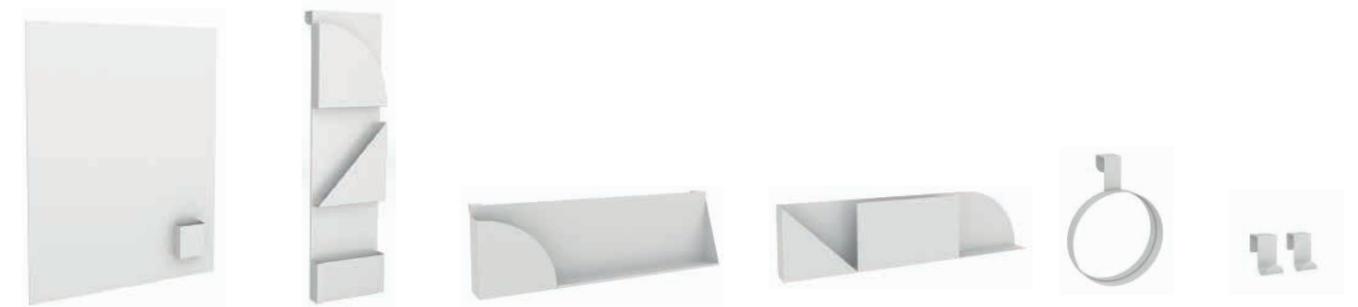

- Cabinet h 132,5 cm (h 52 1/8") with
 - no.1 set of 3 shelves
 - no. 1 Coat rack
- Cabinet h 132,5 cm cm (h 52 1/8") with
 - no. 2 sets of 1 shelf
- Cabinet 167,5 cm (65") with
 - no.1 set of 1 shelf
 - coat rack
- Cabinet 167,5 cm (65") with
 - no.1 set of 3 shelves

Collection overview

Desk panels

- Desk panel — L 98 cm (38 1/2")
- Desk panel — L 159 cm (62 1/2")
- Desk panel — L 179 cm (70 1/2")

- Whiteboard
- Magazine holder — two types
- Slim-line shell — two types
- Organizer
- Mirror
- Hook

Paravan Mood accessories are the only options for which Arper guarantees combination with Paravan's panels.

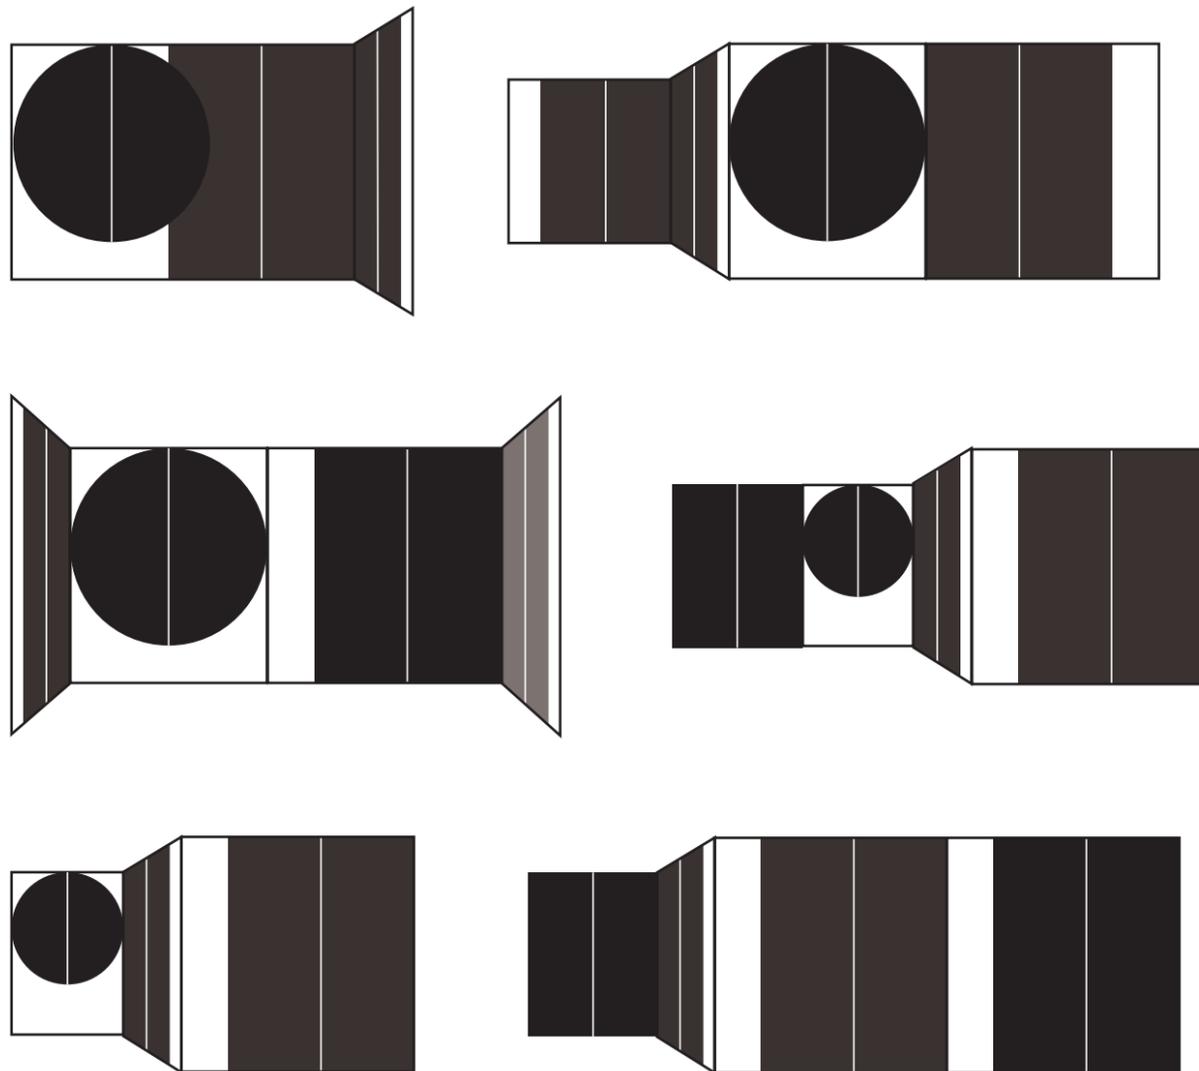

PARENTESIT COLLECTION

Parentesit Freestanding

A private enclosure for collaborative work contexts. Freestanding Parentesit creates a retreat for individual, focused work or collaborative group discussions.

Four versions — inset little circle, big circle, square, or circle and square combination — are each given structure and substance by a supportive frame. These modular pieces can be combined to create graphic expressions of archetypal forms or customized with color to generate bold compositions that articulate space and define shelter.
